PUBLIC MEETING.

3040.216

MAHATMA GANDHI

PRESIDENT

AT THE

EXCELSIOR THEATRE

TUESDAY, AUGUST 2ND.

RESOLUTIONS.

1. This meeting representative of the citizens of Bombay without difference of caste or creed regards with horror the atrocities committed by Greek troops and their adherents in the homelands of the Turkish race.

2. This meeting resolves, in view of the present boycott of foreign cloth in India that as much as possible of the said foreign cloth discarded by the Indian people, shall be sent to Turkey for the comfort of the sufferers from Greek aggression, of whom nearly a million are devoid of proper clothing or the means to buy it, and that an All-India Committee be at once appointed to organise this philanthrophic work which is well calculated to promote the sense of universal brotherhood.

3. In view of the facts tha an interallied commission of inquiry has pronounced that the Greek claim to even Smyrna and its immediate hinterland is unjust, that another interallied commission lately testified to the horrors which Greek rule entails upon the Muslim majority, that the Greeks are now in "occupation" of a large part of Turkey and that the present Greek offensive is said to have been undertaken in defiance of the wish of the allies, this meeting has no confidence in the declaration of her neutrality by Great Britain and places on record its opinion that had the British Government been sincere in its profession, it could have protected Turkey from the unprovoked attack upon her homelands by the Greeks and it would have done so without in any way endangering the rights of non-mussalman races in the Turkish dominions.
